Dear friends from the  
Prison University project,  
I can't describe the  
feeling I had on receipt  
of the care package that  
you sent me. Thank you!

Last year in February  
my Father past away. All  
the things that I had  
taken for granted went  
away with him. Letters, visits,  
Canteen, packages & Phone  
Calls.

When I came to prison  
my Dad & I weren't on  
speaking terms. With-in  
the last six years of  
his life. We mended our  
relationship, this sent him  
to the afterlife with less  
regret and myself looking  
onto the future with a  
positive outlook and happiness.  
Knowing that I was fortunate  
to mend our relation.

I have six years left,  
I'm 49 years old, I work  
Construction, I'm paroling  
to Los Angeles.

I'm OK with you sharing  
this letter. Maybe you can  
ad that I could really  
prosper with a pen-pal.  
A female if possible.

Well, I'll keep this short  
Take Care and Thank you  
ONCE again for helping  
& caring.

Sincerely  
William Bolczak
