Dear Jody Lewen,

I am writing to say thank you and your team for providing myself and the rest of the population with such a thoughtful gift.

My first time eating "pouch salmon"! L.O.L.

Your school program is a mechanism to a higher education, but I also feel it's a morale boost for a lot of men. Thank you for your service. I started attending in the Spring (Math SOA) and loved the classroom experience and learning.

Covid 19 is scary in prison! There is no such thing as social distancing having a cellmate, masks are worn upon ones convenience. I'm blessed to have a working television and I'm shocked, appalled and amused at how people are acting in "the free world!" I've heard (or saw) "WE'RE NOT PRISONERS", that's funny because we don't want to Die!! (at least I don't)

This pandemic put the world on pause, it is up to each individual to figure out what God and the World is saying. This is a time to

reflect, reset, and refocus on what's important, who's important and most importantly who we are as a human being. At least this is my thought process. Maybe because I'm a "prisoner" I know how to shelter in place and find the value in it.

Enough of me going on a tangent. Thank you again Jody and team. May you all be blessed, safe and in good health. All of you are lifechangers.

Graciously,
Joy D. Co. S.
