(1) Hello my name is Fernando Corio, but my prison name is Cindy because I AM a transgender woman I AM in the process ~~in~~ in my transition. So I writing this letter with ~~totaly~~ respect to let you guys know the I got the gift the you guy send me and just me, but to all those prisoner the lives here. So with all my heart I appreciate that, I ^{think} all the people ^{here} need a sanitizer but lot of things we don't laud to have here. like spray bottles to clean ~~the~~ the walls or our beds lights sink and ect. because many people have been live here before and we don't know what kind of jermis those object have. is the other reason the people get sick easier especially with covid 19 so is huge virus the we facing in the whole world and I hope that the medical scientist would found a natural treatment or vaccine for the virus I AM praying for that in for the whole world I hope we get to normal one this days I think just on time with the will of God. before I got here I was in Chino state prison, but they transfered me here 15 day ago posaly to keep us safe from the covid 19 because lot of us we have serpus medical problems. So after three days we got here we got tested most of us tested positive because I did, so I got lots of consume right now because I don't have any family here in the ~~state~~ us that can look up for me I was find in chino, the C.O toll us the somebody ~~ca~~ got with us in bus transfer the virus to the other but we don't know for sure, but thank God I feel like I don't have a symptoms, but they have us isolaty in single cell right now I don't what--

(2) going to happen to me if I get worse they will take to the hospital or they just going to ~~let~~ let us suffer in the cells. because I think they don't care. the nurse check our temperature ~~to~~ two time a day in dust set but I hope I will be ok with Will of God, because I have heart. So I am sure that they don't care because when I was in China I got mandown five time with short breath stoping pain and pinching pain in my chest and with sweating the nurse pick me up and after little white they send me back to my dorm saying the nothing is wrong with, so all this time is been like this. I am talking about before the virus started in China. So I think what is the difference now because the system in here had send change the let ~~the~~ ^{to the family} prisoner died in here and they said is natural death so I think you guys understand my point, and not just me thousands of prisoner in the prison suffer like this. when I was in China. this before ^{the} virus started. like list ~~of~~ 9 people died there with heart problem, ~~and~~ but I hope God safe me. and I hope not ~~it~~ wouldn't happen here in San @ uentln with the covid 19.
