Hi my name is Desmond Dickerson I am in San Quentin's reception center I was sentenced to 16 months on 1-15-20 I have been incarcerated at San Quentin since 1-30-20 I am 33% eligible which would make one day count as 3 that is why I took my deal that means I would only do 5 months and 10 days on my term but due to the quarantine I am stuck in reception where I can only get 50% of my time so I have to do 8 months off of 16 months. I saw my counselor on my 42nd day 3-12-20 and was indorsed to High cleasat State prison on 3-23-20 to finish my time on the main line there and recieve my 33% but because of the quarantine there is no bus movement causing me to do more time then I should have to. The San Quentin staff informed us that they were releasing 3500 inmates with 90 days or less early which I would be qualified for if I was on the main line where I would have

60 days instead of 5 months
there are a lot of inmates in here
with this same problem I am also
a non violent offender with out
any write ups I feel any one
meeting the criteria should receive
the 33% 3 days for 1, if it
wasn't for Corona virus which is not
my fault I would have been at high
deceast state prison a long time
ago receiving my 33% I have also
signed up for Alternative Custody
Program to be released early on ankle
monitors or to a half way house / Drug
Program I don't know where else to
turn for help can you please Assit

City of Oakland in the morning and
