Dear Jody

I thank you for the package that you send me I AM very stress out because I was doing fine at the Chino Prison. I was sleeping in a dorm with other inmates, I had my own T.V AND RADIO. When I was in Chino Prison I WAS fine AND I AM still fine. But as soon as I got here in SAN QUENTIN they put me in a dirty and filthy cell that wasn't cleaned or SANITIZED. ANY way to make things worse the sockets are burned out, I CAN'T watch my T.V. programs or Listen to the Radio. I got here MAY the 30th, 2020 AND I asked them to send the maintenance to fix the sockets. AND I keep asking to do it but they just shine me off. I been here in tiny cell for 18 days AND I am here by myself with nothing to do. I started to read the Holy Bible because there was nothing else to do but I got more stress Because GOD KNEW that this CORONAVIRUS WAS going to come before He made ADAM AND EVE. Why didn't He destroy ADAM AND EVE AND start over with another ADAM AND EVE. They were just two people NOW 100,000 people have die because of the CORONAVIRUS. I feel terrible in this here cell, I starting to hear voices AND have bad dreams. Doctor AND the Nurses told me I came out positive AS SOON AS I got here they found me positive, when I WAS in Chino Prison I WAS fine AS SOON AS I got here they found me positive I don't believe them then I ask them for medication

AND they say there is NO cure for me AND I feel fine. I don't know what going on but I think it HAS something to do with President Donald Trump AND China. Because China don't like the U.S. President very much.

I Like to go back to China it's better then here in this little quiet cell. With NO music or window to look outside at the birds. What I AM going thru is much worse than in jail. All the nurses do is check my temp every morning AND evening but they HAVE NO cure. To me Coronavirus is never going to die. We all are Doom thanks to President Trump.
